Profile

"Create technology along with empathy, creativity & ethical responsibility"

My education has enabled me to learn various programming languages and frameworks in a relatively short time. It has also taught me the methods, tools and ethical mindedness of a user-centered designer, which I incorporate into my projects. I am experienced in **web-, mobile- and game development**. I value **code efficiency, inquisitiveness, creativity and communication**.

Work experience

Service developer <i>iO</i>	2/2022 - 9/2022
Frontend developer (internship) <i>Burst-digital</i>	9/2021 - 1/2022
Workshop supervisor <i>DigiVita-code event</i>	15/2/2020
Peercoach <i>Creative Media & Game Technologies</i>	8/2020 - 8/2021
Ambassador <i>Creative Media & Game Technologies</i>	10/2020 - 8/2021

Projects

I Won't Forget Hue 2023

Worked on efficiently developing the enemy AI and its behavior in a way that it could be easily tweaked by both designers and other developers.

Game Design and Development Minor, Rotterdam University of Applied Sciences

Rat Soup 2022

Contributed in a large part of the development process. Focused on designing and developing a way to efficiently store and retrieve all game data that made it easier to manage for both the developers and designers.

Game Design and Development Minor, Rotterdam University of Applied Sciences

Heeltech 2022

Concepted, researched, designed and developed heels that produce and store energy by walking to charge your phone with.

Creative Media & Game Technologies, Rotterdam University of Applied Sciences

Twee Druppels Water 2022

Contributed in the conceiving, researching and designing process. Researched, designed and developed the interactive 3D part of the application.

Creative Media & Game Technologies, Rotterdam University of Applied Sciences

Ella Bella Creations 2020

Designed and developed the website. Used Sanity to build a customized CMS to allow Ella Bella Creations to easily manage all of their content themselves

Ella Bella Creations, Rotterdam
